

6.5 MHz Linear probe 5.0 MHz Micro-Convex 3.5 MHz Convex

Specifications :

- Screen Size: 5.5 inch, TFT color LCD
- Display Mode: B, B+B, B+M, M, 4B
- Gray Shade: 256 levels
- Scan Depth: 70-240mm, adjustable
- Cine Loop: ≥ 400 frames
- Built-in Memory: 64 images
- Focus Position: 2 points adjustable
- Annotation: date, clock, name, Sex, ID, Age full screen editor.
- Battery Working Time: ≥ 3 hrs
- Battery Charging Time: ≥ 2hr
- Net Weight: 700g
- Package: metallic case in a carton box
- Image Reservation: up/down, left/right

- Image Processing: Coded color, GAMA, Histogram And Image Smoothen, N.G (near gain) adjustable F.G.(far gain) adjustable O.G (overall gain) adjustable
- TCG:
- Language: English/Chinese switchable
- Measurement: Distance, Circumference, Area, Volume and Heart Rate
- OB Measurement: EQUINE--GSD BOVINE--BL/SL/HL SWINE--HL SHEEP--USD CAT--HD/ BD DOG--GSD/CRL/ HD /BD

Standard Configuration:

- One (1) Main unit
- One (1) 6.5MHz Vet Rectal Linear Probe
- One (1) AC-Adaptor
- One (1) Rubber Protector
- One (1) Rechargeable Battery
- Two (2) shoulder and waist belts
- All above will be packed in a carrying case

Optional:

- Probes: R50/3.5MHz Convex Probe L40/7.5MHz Linear Probe R20/5.0MHz Micro-convex Probe
- Car Lighter
- Additional rechargeable battery
- Video Goggles
- Scanner Bracket

HC-A033V

Veterinary ultrasound scanner

is a small, compact and battery powered Ultrasound Scanner for Veterinary applications anywhere in the field.
